A
Maximum Error
Max |Price − Outcome|
B
Time Above Noise
Share of Periods Above Band
C
Steady-State Error
Mean |Price − Outcome|
Herding Strength (h)
0.0
0.25
0.5
0.75
1.0
Median
Ordinary noise band (A)
D
Steady-State Distortion
Steady-State Price Error ($p_s - \eta$)
Initial Whale Capital Share (ρ_0)
E
Maximum Market Error
Stubbornness (s)
Herding Strength (h)
Maximum $|p_t - \eta|$
Herding Strength
